COGNITIVE DEVELOPMENT

Contents Index

Volume 20, Number 1 **January–March 2005**

CONTENTS

Age-appropriate cues facilitate source-monitoring and reduce suggestibility in 3- to 7-year-olds 1
Alexandra Bright-Paul, Christopher Jarrold and Daniel B. Wright

Watching the infant brain learn words: effects of vocabulary size and experience . . . 19
Debra L. Mills, Kim Plunkett, Chantel Prat and Graham Schafer

Do children need to learn to collaborate? The effect of age and age differences on collaborative recall 33
Patrick J. Leman and Zoë Oldham

Development of face recognition in infant chimpanzees (*Pan troglodytes*) 49
Masako Myowa-Yamakoshi, Masami K. Yamaguchi, Masaki Tomonaga, Masayuki Tanaka and Tetsuro Matsuzawa

From regularities to concepts: the development of children's understanding of a mathematical relation 65
James A. Dixon and Ashley S. Bangert

The influence of complexity and reasoning direction on children's causal reasoning 87
Li Hong, Zheng Chijun, Gao Xuemei, Gao Shan and Lin Chongde

Private speech on an executive task: relations with task difficulty and task performance 103
Charles Fernyhough and Emma Fradley

The role of frequency in the acquisition of English word order 121
Danielle Matthews, Elena Lieven, Anna Theakston and Michael Tomasello

Developing domain-specific causal-explanatory frameworks: the role of insides and immanence 137
Gail M. Gottfried and Susan A. Gelman

doi:10.1016/S0885-2014(05)00079-1

Volume 20, Number 2 **April–June 2005**

Are "late-signing" deaf children "mindblind"? Understanding goal directedness in imitation 159
Stephen C. Want and Merideth Gattis

Executive function and children's understanding of false belief: how specific is the relation? 173
Ulrich Müller, Philip David Zelazo and Sarah Imrisek

Development of self-perceived ability in elementary school: the role of parents' perceptions, teacher evaluations, and intelligence 190
Birgit Spinath and Frank M. Spinath

Utilization deficiency and working memory capacity in adult memory performance: not just for children anymore 205
Jane F. Gaultney, Katherine Kipp and Gale Kirk

Analogical reasoning in 2-year-olds: The development of access and relational inference 214
Karen E. Singer-Freeman

The role of necessity in cognitive development 235
Frank B. Murray and Yanwei Zhang

The relationship between preschoolers' selective attention and memory for location strategies 242
Fran C. Blumberg, Meira Torenberg and John D. Randall

Color–object interference in young children: A Stroop effect in children 3½–6½ years old 256
Meredith B. Prevor and Adele Diamond

Reorientation in a rhombic environment: No evidence for an encapsulated geometric module 279
Almut Hupbach and Lynn Nadel

Six-and-a-half-month-old children positively attribute goals to human action and to humanoid-robot motion 303
Kazunori Kamewari, Masaharu Kato, Takayuki Kanda, Hiroshi Ishiguro and Kazuo Hiraki

"If it's in your mind, it's in your knowledge": Children's developing anatomy of identity 321
Kathleen H. Corriveau, Elisabeth S. Pasquini and Paul L. Harris

Volume 20, Number 3 **July–September 2005**

My future self: Young children's ability to anticipate and explain future states 341
Cristina M. Atance and Andrew N. Meltzoff

Recalling yesterday and predicting tomorrow 362
Janie Busby and Thomas Suddendorf

Multiple-object tracking in children: The "Catch the Spies" task 373
Lana M. Trick, Fern Jaspers-Fayer and Naina Sethi

Generalising principles in spite of procedural differences: Children's understanding of division 388
Ekaterina Kornilaki and Terezinha Nunes

Children's understanding of ambiguous figures: Which cognitive developments are necessary to experience reversal? 407
Martin J. Doherty and Marina C. Wimmer

Angular figures constrain the perpendicular bias in children's line copying 422
Alyson Davis, Bart De Bruyn and Sam Boyles

Individual differences in young children's suggestibility: Relations to event memory, language abilities, working memory, and executive functioning 427
Claudia M. Roebers and Wolfgang Schneider

Children's strategies in numerosity judgment 448
Koen Luwel, Patrick Lemaire and Lieven Verschaffel

Because it's there! Why some children count, rather than infer numerical relationships 472
Kevin Muldoon, Charlie Lewis and John Towse

Announcement

Society for the Study of Knowledge and Development 492

Volume 20, Number 4 **October–December 2005**

Special Issue: Play and Narrative in the Process of Development: Commonalities, Differences and Interrelations

Editorial

Play and narrative in the process of development: Commonalities, differences, and interrelations 495
Ageliki Nicolopoulou

Mimesis: Where play and narrative meet 503
Carol Fleisher Feldman

The narrative worlds of *what is* and *what if* 514
Susan Engel

Episodic development in preschool children's play-prompted and direct-elicited narratives 526
Hande Ilgaz and Ayhan Aksu-Koç

Reasoning about make-believe and hypothetical suppositions: Towards a theory of belief-contravening reasoning 545
Eric Amsel, Gabriel Trionfi and Richard Campbell

Promoting narrative competence through adult–child joint pretense: Lessons from the Scandinavian educational practice of playworld 576
Sonja Baumer, Beth Ferholt and Robert Lecusay
